

The Federal Communications Commission

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee. All I ever read or hear anymore is an increase here, increase there. PLEASE! Just to have a phone in the house with the lowest plan there is (so basically a phone with a dial tone is) \$29.00 per month regardless if you use it. Then tack on all the extra fees...I'm sorry but you hear the phrase just say NO??? There are WAY too many things being taxed..increased and added to that a person cringes when they receive their bills in the mail. This is Unfair!!

Keep the USF Fair! Sincerely, Mrs. Annette Siekert N8869 10th Lane
Westfield, Wisconsin 53964

Sincerely,

Annette Siekert
